

Fast, Faster, Fastest

The more you practice English, the better you become.

The faster you improve, the more you have fun.

The more fun you have, the nicer it feels.

Just relax, repeat, remember to keep it real.

I'm trying to be a better student, so these days I study longer.

It's easier than before. I can feel I'm getting stronger.

If I'm smarter I'll go farther. Just do your best. That's what they say.

I want a brighter future so I work harder every day.

The more you practice English, the better you become.

The faster you improve, the more you have fun.

The more fun you have, the nicer it feels.

Just relax, repeat, remember to keep it real.

I'm not a bad drummer. At playing piano, I'm much worse.

I'm not sure I'm the best singer, but at least I can rap this verse.

There are lots of things I love: drawing, cooking, and watching movies.

But relaxing with friends and family is the happiest time for me.

The more you practice English, the better you become.

The faster you improve, the more you have fun.

The more fun you have, the nicer it feels.

Just relax, repeat, remember to keep it real.

I have doubts sometimes but fewer than in the past.

When you're truer to yourself, the bad times don't last.

Just let them pass. Your load is lighter when your head is clearer.

The darkest thoughts, push them out; the brightest ones, bring them nearer.

Your life will be fuller. Your confidence will increase.

The earlier you do this, the sooner you'll find peace.
